DEPARTMENT OF COMMERCE.

India, the 1st July 1923.

No. 192-C.—The following papers are published for general information:—

- (1) *Letter from the Secretary to the High Commissioner for India to the United Kingdom,*
No. H.C. 1237
dated the 1st May 1923.

I am directed to forward, for the information of the Government of India, Mr. Lindsay's report on the work of the office of the Indian Trade Commissioner for the two years ending 31st March 1924.

1. Mr. Lindsay's letter No. 1007 of 28th August 1922, forwarding Mr. Chadwick's report for 1921-22, gave occasion to the opinion held by Sir William Meyer at the grand soire to India at the part of Indian Trade Commissioner in London. The present High Commissioner undertakes himself fully with that opinion, and desires to add that he considers that Mr. Lindsay has carried on with great ability and credit the work entrusted by Mr. Chadwick.

2. The report itself indicates the very wide scope of the Trade Commissioner's activities, and their value to the industries and export trade of India. Sir Indira Debi, too, moreover, has been much impressed by the very cordial relations which Mr. Lindsay has maintained with business men in this country who have relations with India, and he has on many occasions received testimony both to the high mission which Mr. Lindsay has won, and to the success which he has been able to render to Indian trade by his tact and energy.

1

- (2) *Report on the work of the office of the Indian Trade Commissioner in London for the period from 1st April 1922 to 31st March 1923.*

I have the honour to submit my report on the work of the Office of the Indian Trade Commissioner for the period from 1st April 1922 to 31st March 1923. Mr. D. T. Chadwick, C.B., F.C.S., who wrote the last report for the period 1st April 1920 to 31st March 1922, continued in charge of this Office until 1st July 1922 when he was succeeded by Mr. F. Meyer, C.B., F.C.S., F. Inst. Eng. My report on the 1st of February 1923, and resumed charge during the absence of the present under review. My Chadwick's report for 1920-22, with the forwarding letter of the High Commissioner, was published in the *Gazette of India*, Second List, the 7th October 1922 under Commerce Department, Notification No. 2145, dated the 3rd October 1922.

1922-23.

3. During 1922-23, the expiry of the two years under review, the location of the Office remained at Whitehall House, Old Bond Street. The functions of the Indian Trade Commissioner remained in substance the same as they had been in 1920-22; they are fully and clearly explained in Mr. Chadwick's report and it is unnecessary here to do more than to recall them in brief summary. They fall under two main heads, Commercial Intelligence Work Paper and Special Work.

3. Commercial Intelligence.—Commercial Intelligence work is undertaken in the interests of Indian Industries and of the export trade of India. The Office is not interested in the import trade of India, which is the concern of British and Foreign Trade Commissioners and Consular Offices established in India, and of the States which supply them. Under the head of Commercial Intelligence three defined are included:

- (a) Trade Information.
- (b) Special reports to Indian firms regarding market conditions in the United Kingdom and Continent or regarding new processes likely to be useful to the development of Indian Industries.
- (c) Special reports to Departments and offices of the Government of India, Local Governments and Indian States.
- (d) Assistance to Indian Industries and Merchants visiting the United Kingdom and Continent and to Indian firms established in the United Kingdom.
- (e) Answers to enquiries from business houses in the United Kingdom or Continent interested in purchasing Indian goods.
- (f) Generally looking after the interests of Indian firms, where such action is legitimate and practicable, in any misunderstandings which may arise with firms or Government Departments in the United Kingdom and the Continent, provided no question of policy is involved.

4. Special Work.—The special work undertaken by the Indian Trade Commissioner during 1922-23 amounted chiefly to:

- (1) The organization of the Indian Arts and Crafts stall at the British Industries Fair and the display of the exhibits.
- (2) The organization of the India Section of the British Empire Exhibition.
- (3) The issue of certificates under the Indian and Slave Export system.
- (4) Consular work in connection with the British Empire Exhibition (India Section), the Advisory Council of the Board of Trade, the Empire Cotton Growing Corporation and the Empire Flax Growing Committee.
- (5) The consular rebating to Government wheat sales in the United Kingdom and Continent.
- (6) The clearance and sales of Hypocrite Dyes.

1923-24.

4. *Transfer of Office.*—Within a month of assuming charge as Indian Trade Commissioner, I received instructions from the Government of India, through the High Commissioner, to close my office at Winchester House, and to transfer to the High Commissioner's Office at 43, Grosvenor Gardens, effecting in the nature of transfer as little a reduction of my staff as was possible. This measure was necessitated by the financial position of the Government of India, which asked for a saving equivalent to all the services of the Government. I also gave notice to the Trustees of Winchester House, in terms of the lease, of the intention of the Government of India to re-let the premises for the unexpired period of the lease, which amounted to one year and nine months, and made active suggestion for a sub-lease with the help of an agent. I also gave notice to members of my staff whose services could not be retained. The transfer to Grosvenor Gardens was effected on the 1st of April 1923, and a new tenant was found to take over, on the thirteenth day of the same year, the premises then rented at Winchester House. The staff was reduced from three Assistants, one head clerk, five clerks, one stenographer, one typist, and one attendant, to one head clerk, and one clerk. The change of personnel and the consequent alteration in methods is described in the next paragraph.

5. In describing the work of the Indian Trade Commissioner during the year 1923-24 it is necessary at the outset to draw attention to several changes which have occurred in the functions of the Office. These changes took place gradually during the closing months of 1922 and the early months of 1923. They altered the general work described in the fourth paragraph rather than the Commercial Intelligence work proper, though the latter has undergone extensive transformations which will also be described.

6. *Special Work of the Indian Trade Commissioner—British Empire Exhibition.*—In the first place, work connected with the British Empire Exhibition increased so rapidly during 1922 that it had become necessary to appoint a whole-time officer as Secretary to the Advisory Committee and Executive Assistant to the High Commissioner in matters relating to the Exhibition. This post was first created in October 1922 and since was occupied by Mr. Randall throughout the year 1923-24. The Indian Trade Commissioner was thus relieved of detailed administrative work connected with the Exhibition, but continued to serve as a member of the Indian Section Committee.

7. *Certificates of Indian Mills and Rice Shippers.*—In the second place, with the abolition from 1st March 1923 of preference to British produce in the Indian Export Duties on India and China and the reduction in the general rate of those duties from 35 to 5 per cent, the task of certification was modified to arrangements which left little room in that date. This work is now an arid and as that process is to date is to some of the outstanding necessities (24 in all) for which, owing to liquidation of the importing firms so far after months, applications for certificates have not been received. The following statement shows the number of certificates issued by the Indian Trade Commissioner during each of the past three years, showing suggestions from the ports indicated.

Year	Bombay	Calcutta	Rangoon	Madras	Batavia	Singapore	Total
1920-22	401
1921-22	475
1922-24	77

Thirdly, the expansion of the concrete was finally closed on the 31st January 1923. Only one claim remains to be settled before the Government when the concrete was also closed; it is expected that this claim will be settled during the current month.

8. *Concrete work.*—While the bulk of the special work described in Mr. Chadwick's report for 1923-24 has thus terminated, nothing possible the daily reduction of staff which was effected on the transfer to Grosvenor Gardens, the Concrete work of the Indian Trade Commissioner has actually increased. Throughout the year 1923-24 I continued to serve as a member of the India Office, with the approval of the Government of India, as the Advisory Council of the Board of Trade.

Meetings of the Knives Flax Growing Committee are not regularly held, but I am kept posted, and in turn inform the Government of India, of important developments of this industry.

9. I continued to serve as Indian Government representative on the Executive Committee of the Empire Cotton Growing Corporation. My work in this Committee, and the friendly relation with headquarters staff of the Corporation established by my predecessors, developed steadily throughout the year. Acting on suggestions received from the Indian Control Committee I was fortunate to secure the members of the Corporation in several directions beneficial to the Indian Cotton Industry. In the first place, the Corporation have agreed, by arrangement with the Cotton Master Cotton Growers' Association, to put through existing cases of transfer possible of Indian Cotton likely to prove suitable to the requirements of European exporters. A beginning was made in March 1923, with a selection of one bale of Indian cotton purchased by the Corporation in Liverpool. A further ten bales have been shipped by the Indian Control Cotton Committee from Bombay and will undergo another test. The results will be brought to the notice of European exporters and it is hoped that a direct channel will thus be given in India to the marketing and sale being of long stable nature.

Secondly, the Corporation have approached the Liverpool Cotton Association with a view to the participation of a special firm of hedge contract to enter typical grades of Indian cotton. Thirdly, an Indian representative of the Corporation, was appointed in June 1923, to advise on all problems specially affecting the Indian Cotton Industry. Of this representative I was appointed the Chairman. Finally, the Corporation have supplied Indian cotton in their sale at the British Empire Exhibition and have entered with advice in the arrangements preliminary to the appointment of the staff of the Indian Control Cotton Committee. For these practical measures of assistance to the Indian Industry, acknowledgment is due to the valuable co-operation of Mr. H. H. Jackson, Chairman of the Corporation, of Sir James Curzon, G.C.B., G.C.V.O., Governor of the Corporation, and to Mr. W. H. Hinchley, General Manager of the British Cotton Growing Association. I also served as member of the Intelligence and Library, and Exhibition sub-committees of the Empire Cotton Growing Corporation throughout the year.

11. As already explained, I continued to serve as a member of the Indian Society Committee of the British Empire Exhibition. In addition, I accepted nomination to the Burma and Bengal Section Committee.

As a member of the London Chamber of Commerce I attended an invitation, in an advisory capacity, meetings of the East India Section of the Chamber. I also attended and developed the majority of sessions with my predecessors. I had established with the Manchester Chamber of Commerce relations which my predecessors had established with that Chamber with advice and information as given, and in particular assisted the India Section of that Chamber with advice and information as given.

I attended meetings of the Federation of British Traders' Associations which under the Chairmanship of the Stephen Dunstons, M.P., has developed progress with the Chamber of Commerce of the United Kingdom in which India is concerned. I have throughout the year been in close touch with the International Chamber of Commerce, the Association of British Chambers of Commerce, the Federation of British Industries and the Chamber of Shipping of the United Kingdom.

Special reference should be made to the British Empire Trades' Organisation, which acknowledges the interests of production in all parts of the Empire. I was asked, and agreed, to serve as a member of the Executive Committee of the Organisation and at meetings of this Committee have advised on the various questions affecting the Indian Industry under various circumstances. I have recently accepted nomination to the Finance Committee and to the Council of the same organisation.

12. As delegate of the High Commissioner I serve on the London Section of the Trade Institute and on the various committees of the High Commissioner's Council, as the Imperial Shipping Conference. I was nominated by the Government of India as their representative at the International Navigation Conference in July, 1922, when several questions of importance and interest to India arose, particularly that of port facilities for steamships of great draught and the recovery of charges relating thereto. Finally, with the approval of the High Commissioner, I presided over the Conference of the India Office on behalf of the Indian representatives at the Imperial Economic Conference of October 1922. I attended meetings of the Conference as Deputed Secretary to the Indian Representative and served on those sub-committees of the Conference dealing with Empire questions relating to customs, commercial intelligence, trade statistics and shipping, in which Indian interests required representation.

13. *Trade Enquiry Office.*—As a first instance of special work on behalf of Indian trade, I have undertaken, at the request of the India Office, to watch the interests of Indian firms which have difficulty in securing Export Licences for goods ordered from manufacturers in the Occupied Territories of the East.

14. *Commercial Intelligence Weekly Cable.*—While the special work of the Indian Trade Commissioner has thus developed in some directions and measures, in others, his primary duties remain those assigned with the dissemination of Commercial Intelligence. I have also three times been in considerable charge during 1922-23. During the present year, a disconcerting feature of the Office has been the disturbance to firms in the United Kingdom in relation to Indian trade, by means of a weekly printed account of special information regarding trade requirements in India. This circular was issued on a weekly basis received from the Director-General of Commercial Intelligence at Calcutta, giving reports of weather conditions and crops in India, market quotations and Indian trade statistics. To the information contained in these cables was added any further trade news which had come to the notice of the Indian Trade Commissioner and was likely to be of use to the firms free to be published. This service was highly valued by Indian trade circles in the United Kingdom. It was concluded that this service was highly valued by Indian trade circles in the United Kingdom. It was concluded that this service was highly valued by Indian trade circles in the United Kingdom. It was concluded that this service was highly valued by Indian trade circles in the United Kingdom.

15. *Visit to the City.*—A usual development which has occurred in connection with the transfer to Government quarters. When other firms had placed a permanent headquarters for the office, as it was settled and ready to move to business firms in the City, who frequently send representatives to assist the Indian Trade Commissioner in questions relating to Indian trade. From the point of view of the transfer to Government quarters it was likely to cause some inconvenience in the office and dependent upon it for commercial information. This inconvenience is in some instances overcome by means of the telephone, but the telephone fails where important and confidential subjects have to be discussed in person or where the question arises of making visits of reference. In order to meet such requirements, I was frequently able, through the courtesy of the Chairman of the East India Section and the Secretary to the London Chamber of Commerce, to secure the use of one of the committee rooms of the Chamber for two mornings each week. At this time are held personally and in the presence of the more important bodies of reference arranged in my office library. These have been of great value in the past and have been of great value in the past and have been of great value in the past. These have been of great value in the past and have been of great value in the past. These have been of great value in the past and have been of great value in the past.

16. *Trade Information.*—The various channels of trade information supplied by the Indian Trade Commissioner, whether personally or in reply to requests, have been noted, in the third paragraph of this report. Communications in form in India are sent through the Director-General of Commercial Intelligence at Calcutta, who keeps a record of the information supplied, and it is then in a position to reply to any requests for similar information, which he may receive direct. A large

attended to the disposal of exhibits remaining uncollected after the close of the fair, and the execution of orders. On this account he was unable to conclude the task before he went on leave, and the shanty sales, and winding up of the concerns, was entrusted to Mr. Chandra, the Currier of the High Commissioner's shanty room, who completed these duties satisfactorily.

20. *After Despatch and Personal.*—The management of the office has changed materially as a result of the reduction of staff already noted. Through the courtesy of the High Commissioner I am authorized to utilize the services of the staff of stenographers on his side, my accounts are kept by the Accounts Department; sales of publications in various selling at my office are merged in the general publications work of the Records Branch; I am also authorized to draw on the general staff of secretaries. These arrangements have worked admirably. They have resulted in a considerable saving in the budgeted expenditure of my own office without extra expense on that of the High Commissioner. The reduction of staff has driven additional work on the Indian Trade Commissioner and his two remaining clerks, but this result was inevitable if real and substantial economies were to be effected. It has meant that I have to attend personally to numerous inquiries relating to Indian customs and Indian Customs Regulations and various trade introductions which were previously handled by Mr. C. S. Fox, Mr. F. E. Rose and Mr. R. D. Jell respectively. These three officers were employed as assistants to the Indian Trade Commissioner before the transfer to Government Gardens, it is needless to state that I severely miss their services, which terminated on 31st March 1924, when Mr. Fox returned to India and Messrs. Rose and Jell went on furlough. The following statement summarizes the total cost of the office of the Indian Trade Commissioner during each of the past three years and indicates the economies effected as a result of the reorganization of April 1923—

Year.	£
1921-22	8,558
1922-23	5,002
1923-24	4,117

21. Mr. Butler, who has remained on as Head Clerk, has done excellent work in the various administrative details of the office and has also assisted with drafting as required. His task has been a heavy one and he has earned it not efficiently and well. He has throughout been highly assisted by Mr. Kromer, who was also transferred to Government Gardens and who in addition to his clerical duties has attended to the office library. The following figures show the effects of the transfer, enrichment of work and reduction of staff, on the volume of correspondence handled—

Year.	Letters received.	Letters issued.
1921-22	7,296	7,749
1922-23	5,217	4,537
1923-24	5,683	5,355

The reduction of correspondence is due to the transfer to a special officer of work connected with the Indian Section of the British Empire Exhibition and to the closure of the Wharf ware concerns, the Despatch office accounts and the certification of Hides and Skins. It is true that, with the return of Mr. Fox to India, inquiries relating to Indian customs have fallen off. General trade enquiries, however, trade introductions and demands for reports on special aspects of Indian trade and industries show no signs of diminishing in volume or importance. Replies to enquiries of this character, frequently by telegrams, involve my personal attention and represent a large proportion of my work.

22. *Acknowledgment.*—Checked references have been established with business firms in London, to whom I am much indebted for information and advice freely sought and ungrudgingly given. I welcome the opportunity of expressing my great obligations to the Department of Commerce Trade and to other Departments of State with which I have come into contact; also to Chairmen of Commissions and other Commercial Organizations connected with India, with which I have throughout been in close touch.

(b) The expression "licensee" shall mean the Trichinopoly-Trichangan Electric Supply Corporation, Ltd., and their personal assigns.

(c) The expression "first licensee" shall mean the first licensee in the license.

(d) The expression "depot area" shall mean the place of the area of supply hereinafter specified which has been deposited with the Government of Madras in pursuance of the rules under the Act, which place is equal for the purposes of administration by the Secretary to the Government of Madras in the Public Works Department, and by the applicants under the name and style of the Trichinopoly-Trichangan Electric Supply Corporation, Ltd.

2. Commencement of license.—The date of the sanctioning by the Government of Madras in the Fort St. George Gazette that this license has been granted is in this license referred to as "the commencement of the license."

3. Survey.—(a) The period within which, under clause 1 (a) of the schedule to the Act, the licensee shall show that they are in a position fully and efficiently to discharge the duties and obligations imposed upon them by this license (hereinafter the area of supply, shall, unless otherwise ordered by the Government of Madras under that clause, be one year from the commencement of this license.

(b) The period within which, under clause 1 (b) of the schedule to the Act, the licensee shall deposit security and the sum so deposited, shall, unless otherwise ordered by the Government of Madras, be two months and fifteen paise thousand respectively.

4. Area of supply.—The area of supply shall extend to within which the supply of energy is authorized by this license to the whole of the area contained within the municipal limits of Trichangan and the municipal and non-municipal and postal (a) limits of Trichinopoly extending all the limits of the Government and the railway companies by or within such limits and more particularly delineated upon the 4-point map by a red chain line enclosing the said area.

5. Purpose of supply.—Subject to the provisions of this license and the Act and rules thereunder the licensee shall be entitled, during the continuance of this license, to supply energy for all purposes except in bulk for sale within the area of supply.

6. System of supply.—The system of supply which may be adopted for the supply of electric energy under this license are as follows:—

(a) A method of supply alternating current three phase four wire supply at a pressure not exceeding 400 volts between phases and 220 volts between phase and neutral at a frequency of fifty complete periods per second.

(b) A high pressure alternating current three phase supply at a pressure not exceeding 8,000 volts at a frequency of fifty complete periods per second.

7. Conducting works.—The licensee shall lay down suitable and sufficient transmission lines and distributing mains and service works in the execution of the Government of Madras for the purpose of supply of electric energy throughout such areas or parts of areas as are specified in the

first appearance and are indicated in red on the deposited maps in the name of difference between the description in the first appearance and as indicated as the described map, the latter shall prevail. The licensee shall maintain a record of the work abroad within twelve months from the commencement of the latest and shall complete the same within three months thereafter.

(1) The Bidders shall supply all the energy required by the Tidewater and Solingren Municipal Councils for their water-works, street lighting and sewage works.

(D) If the licensee fails to comply with the above provisions, or should, in the opinion of the Medical Board, the progress made during any portion of the said period of three years be unsatisfactory, the license may be revoked.

(3) The Bureau shall submit reports every six months from the commencement of this House and the completion of the compulsory works specifying all the steps taken and the progress made in carrying into effect this House.

8. (c) *Generating station.*—The licensee shall be at liberty to generate from a generating station within the area of supply energy to satisfy all or part of the requirements and buy the remainder in bulk, or to generate no energy and to buy all the energy required for the distribution and resale in Tolucahuacan from an hydro-electric project or other source having a generating station outside the area of the license.

(4) *Powerlines flow from generating stations.* For the purpose of entering and demanding energy, the licensee may offer an order on writing but has no liability for the Government of Madras entering upon the use of the power referred to in section 51 of the Act, plus social transmission charges, when the general approval required by section 10 of the Act, plus social transmission charges, has been obtained. The area of supply to an area receiving station is to be constructed in such a manner that the area of supply to an area receiving station is to be an area of supply and an area receiving station shall be subject to the question of the licensee flow. The alignment of the social transmission line outside the area of supply and from the generating station and up to an area receiving station shall be subject to the question of the licensee flow.

10. *Erasing up of streets, roadways and waterways.*—(a) In pursuance of the provisions of section 11, sub-section (5), of the Act, the Government are hereby specially authorised to cause the Gurney river and the Durgamunda river and its confluence to be bridged up in the best and most convenient way of the South Indian Railway at all the places where the permanent way crosses the public roads within the area of the city.

(4) The length of the tow-line to be spread on any street at any one time and the period for which they remain open shall be determined from time to time by the Government of Madras as the local authority by whose street is navigable. When any street is closed, not more than half the width of such street shall without the specific authority be allowed to be closed for traffic.

21 *Kindle of prices to be charged in respect of the supply of energy*—The prices to be charged by the Government for energy supplied by them shall not exceed those stated in that behalf in the annual statement, or in the case of a new charge approved by the Government of Malacca to meet the cost of the supply of the substance to the Act, such amounts as the Government of Malacca may fix by an appointment of the authority mentioned in the Act, such amounts may be spent on the subject in accordance with the provisions of the Act for the supply of energy.

12. *Method of valuations*—(a) The apportionment of purchase price by section 7, sub-section (1), of the Act shall first be determined on the valuation of fifteen years from the commencement of the lease and on the expiration of every subsequent period of ten years during the subsistence of this lease. M. KUSHABA RAO,
Executive Engineer, Bellary Division.

TENDER FOR THE SUPPLY OF GILGISHAH HAND BRAND AND LOTUS BRAND CEMENT FOR THE CONSTRUCTION OF THE ELEVATED SERVICE RESERVOIR AT MARGAPATAN

Sealed tenders will be received by the undersigned at his office up to 12 noon on the 12th August 1924 for supplying Gilgishah Hand Brand and Lotus Brand Cement for the construction of the Elevated Service Reservoir at Margapatam.

1. Tenders should be addressed to the Executive Engineer, Tanjore Division, and should be accompanied by "Tender for the supply of Gilgishah Hand Brand and Lotus Brand Cement for the construction of the Elevated Service Reservoir at Margapatam."

2. Each tender should be accompanied by an earnest money of Rs. 400 in cash or treasury notes (which will be returned to the tenderer whose tender are not accepted) and also by several certified receipts of tons of samples of the same. Each tenderer must also bring earnest money to be tendered for. The tenderer must specify the price per ton delivered F.O.B. Margapatam.

3. The Executive Engineer, Tanjore Division, will reserve to himself the right of rejecting all or any of the tenders without assigning any reasons for so doing.

4. Within a week of the acceptance of the tender being intimated to the successful tenderer, he will be required to deposit a further sum of Rs. 400 which, with the earnest money received, will be held to security for the due fulfilment of the contract.

5. The successful tenderer will also within the next period of one week be required to sign an agreement in the proper departmental form for the due fulfilment of the contract.

6. Failure to comply with conditions 5 and 6 above will entail forfeiture of the earnest money.

7. The probable quantity of cement required is 150 tons, but this cannot be guaranteed. The supply required will be in full wagon loads at intervals of a week or each longer intervals as may be decided by the Public Works Departmental Subordinate Officer at Margapatam, who will inform the successful tenderer directly of his requirements and the earnest money laid in the same may be supplied. The first wagon load will be despatched within a week of the date of intimation of the approval to the agreement referred to in condition 6 above.

8. Samples of the cement from each wagon load will be tested at a suitable laboratory at the direction of the Executive Engineer, Tanjore Division, whenever he has reasons to suspect the condition of the cement, and, if as a result of such tests, the sample is found not to come up to the British Standard of Specifications, the whole consignment from which the sample is taken is liable to be rejected.

9. Alternative rates F.O.B. at any other station may also be quoted, but the railway freight charges to the Margapatam station, supported by official intimation from the Railway Company, should also be furnished for purposes of comparison. In any case, condition 7 will be enforced in all cases.

10. The contract must not be sublet.

11. Other conditions of contract and the contract documents can be seen at any time between 11 a.m. and 5 p.m. in the Tanjore Division Office, Tanjore, from which blank forms of tender can also be obtained.
